

# Transcendence

Transcendence celebrates its energy codes of moving into the Aquarian Age, the beginning of a new era and way. As the next few years acts like a bridge from the old that falls away into the new 2,000-year cycle. An age where the rise in the Divine Feminine consciousness and energy is here to assist in us moving into our heart space and seeing with Love and compassion, to release all judgement, separation or polarity. This rich Feminine energy is about being and flowing, rather than doing or striving to achieve.

This water energy is also about bringing through states of freedom and liberation. These droplets support the stages of Spiritual and personal development, as our perceptions change, and we move beyond previous limits that may have been created by self, our peers, our ancestors or Countries.

The droplets support our sensitivities and healing process as we move into deeper states of realisation, align with our Souls and share a unified vision from the heart. I would recommend when using these droplets to start with them gently, before adding more sprays into the energy field or environment. As a suggestion you could start at the outer edges of the spiral that you eventually spray inwards towards the heart. Start at the Soul Star chakra that is an arm's reach above the crown of the head. It is a bit like creating your own labyrinth in energy- gradually becoming closer to the centre and your heart. This journey will be revealing as you embody the Transcendence vibration.

This was created on the Solstice of 21-12-2020 with the Well water that was collected within the Heart Chakra of the World in Somerset. Each collection of well water brought through different experiences as I witnessed joy celebration, dance and music being played at the White Spring, Sovereignty and the exchange of Sacred Masculine and Divine Feminine at The Lion's head at Chalice Well, Helpfulness and Peace at St. Aldhelms Well, and lastly solitude and complete stillness at Littlewell.

These waters culminate overnight on the atmospheric coastline of magical Devon. The reason for this is that the blend facing South West towards the rare alignment and great conjunction of the planets Jupiter and Saturn an occasion that has not occurred for 800 years! Some consider this the star of Bethlehem, heralding something profound and important. This night also witnessed the Ursid (little bear) meteor shower, that has significance to receiving spiritual insights by looking deep into ourselves and our world. Transcendence was not ready to be brought indoors (I used a pendulum for confirmation) until 7:44am after the sound of the lively high tide and the welcoming bird song had occurred.

The essence is finished with the scented notes of Vetiver and Palmarosa for its sweet and earthy scented notes that assist with movement and flow.

Heartfelt gratitude is enclosed to Barbara Iris, a star sister who gifted a gold coin that she placed in the different waters at many sacred sites that she visited and placed this gold into the waters. This coin holds the energies of all these special places and this Gold coin was used in ceremony adding to the flows of the wells visited that day.

**General suggestions on 'How to use'.**

For an instant connection and Energy top up: Spray a mini rainbow shape of Transcendence at the soul star chakra (as far as your arm will reach above the crown of your head), as the droplets fall, breathe the droplets into your body towards your heart, as they pass your nose. Sweep any other droplets towards your heart.

**For a deeper connection with Transcendence:**

- Take a few centred breathes and sink your awareness into your heart centre. Create a moment to feel how you want the energies of the droplets to assist.
- Tap the bottle three times underneath to connect with the energy droplets.
- Say out aloud how you want the droplets to assist (your intention) For example, 'I ask for these droplets to assist me whilst I am going through today's transformation of energies'. Or 'Help me feel the energies of the Aquarian Age within my body temple, thank you and so it is.'
- Spray a spiral, a favourite symbol or some light language with the droplets of Transcendence at the Soul Star chakra/ energy point, and allow the droplets to fall, breathe deeply through the nose when you feel the droplets pass your nose, and visualise the natural vibrations touching all your cells, chakras, spine, higher heart, and mind.
- You can also sweep the energy droplets down the front of the body, lift each foot individually and then sweep the droplets with intention up the back of the body, to create a whole circuit of energy in your temple space.

- Alternatively, spend time half an hour in meditation and visualise a labyrinth shape around the body with the centre being at your heart, take your time in mindfully walking in presence, as you move through the different paths to reach the centre.
- Pause to receive the energy and any messages, prompts, knowing(s).
- This water energy is supportive for inner journeying and connecting with the body's intelligence.
- You may want to have Transcendence in your hand/man bag ready for those moments ahead in the day when you could do with some energetic liquid light support for you.
- This energy is incredibly supportive as you move through your personal catalyst of change, when trusting and surrendering to the Universal flow.
- Celebrate how far you have come on your journey!
- Ultimately, follow your own intuition and only take what resonates.
